

Press Release

1st August 2013

A little piece of the Kings Road in sunny South Devon

GillmoreSPACE, an established trade brand that supplies contemporary furniture to the interior design industry, has just opened a small showroom at its Paignton premises.

This means that for the first time iconic designs such as Barcelona, Loopy and Gerrit, designs that for over a decade have furnished some of the country's finest residential and contract developments, can be seen and purchased direct from the warehouse door.

This is great news for local Devon businesses such as hotels, agents and landlords for holiday lets and in fact anyone who loves British design and wants something a bit different for their interior. Furthermore, for high-end design, GillmoreSPACE products are surprisingly affordable (with bedsteads under £600 and flat screen media sideboards around the £400 mark) and with items usually available for immediate delivery there is every reason to pop in.

'As a small creative company with a national trade following, I have always felt our high end designs deserved a wider profile to the discerning consumers and property owners in South Devon. Our small showroom allows us to do just that - its location in Paignton might not compare to the Kings Road but, that won't worry those who value contemporary design and like to support local business.' **Charles Gillmore**

The warehouse showroom is open Monday to Friday 10am to 5pm by appointment.
Unit 22, Torbay Business Park (opposite South Devon College), Long Road, Paignton, TQ4 7HP
