Gillmore – British design

Welcome to the Gillmore product catalogue EDITION 10. It is always a joy to be sending out a fresh new catalogue and this one is particularly special as it is 20 years since the launch of our very first furniture collection.

Although two decades have now passed the Gillmore philosophy remains unchanged. Simply put this is to offer unique contemporary furniture delivered quickly by a small, friendly team.

The catalogue opens with the exciting new ADRIANA series. This ambitious collection of furniture features some mouth-watering new materials such as fluted glass and perforated steel. With a wide menu of colour choices Gillmore furniture has always offered designers and homeowners flexibility to personalise a design to suit, and this quality is no better illustrated than in the innovative new ADRIANA series.

Other highlights in catalogue EDITION 10 is the striking new IONA series of tables. Here we have created some wonderful 'hourglass' formations by inverting the popular conical table base shapes. Practical, timeless, and playful, IONA is modern design at its best!

You may be viewing our products for the very first time so within these pages we hope you find something truly inspiring, and for those regular clients who have been with us for years we hope our fresh new creations will enhance your forthcoming projects.

Enjoy browsing this catalogue and further product information can be accessed on the website www.gillmore.co.uk. Otherwise call us for a chat or drop us an email; we can't wait to start working with you!

Finn

Tops

Frames

Finn is a versatile new collection of Gillmore signature pieces for the contemporary living space.

The designs are characterised by beautifully shaped metalwork accentuated by a choice of cutting-edge materials for the tops. These include textured laminates bringing the industrial qualities of stone and wood to life which contrast beautifully with the classic refinement of marble and glass.

Finn crosses the boundaries between classic British contemporary design and 'Scandi' urban chic, making it a truly universal collection of occasional furniture, ideal for any discerning designer or homeowner.

choose...

With an array of colour choices Finn allows you to mix and match bases and tops to your heart's content. Furthermore, the stone and wood surfaces are reversible allowing you to flip between pale and dark shades at any time.

Finn

Dark and moody, the silky matt black frames pair beautifully with the cement and rust elements of the industrial stone tops. The 'Scandi' element is further enhanced with the application of the rich open grained wood finishes to create the ultimate urban retreat.

Finn

Fresh, crisp and clean. The polished surface of stainless steel creates a stunning modern statement which is also highly durable.

The nesting ability of the tables creates a stunning trio of overlapping materials and colours.

A brass tray top is available with an eye catching spun 'anisotropic' brush finish.

Finn choices

Elegantly functional, the dining chair has been designed to stack.

Simple upholstered pads are an optional extra to soften the feel of the bed headboard, dining chair and bar stool.

We recommend weathered oak flat tops alongside any tray.

A refined collection of classic table shapes. From marble to wood, metal to glass, Iris offers the broadest choice of surface colours and textures. When combined, this rich palette can cater for any personal style from the vintage chic of brass and antiqued glass, to the industrial warehouse feel of gun metal and weathered oak.

Select from coffee tables, side tables and console tables, with flat tops, tray tops and drawer tops. Mixing and matching tops is integral to the character and adaptability of this collection. We particularly love the contrasting combination of the open grain texture of the weathered oak alongside the satin feel of the metal trays.
